FOR IMMEDIATE RELEASE

Tri-State purchases eAutomate system

LACROSSE, WI., – Tri-State Business Machines (TSBM), La Crosse, Wis. announced they recently purchased a new ERP system called eAutomate and will begin implementation in the near future.

“This new system will provide many new features for us and our customers as the system and its capabilities begin to get rolled out” stated Steve Averbek, head of Accounting and Finance.

“During the initial start up phases, we anticipate that there will be a few issues, but of course, we’re trying to keep them to a minimum” Mr. Averbek said “Ultimately we are confident that this new system will result in many benefits for our organization and, most importantly, for our customers.

Once fully implemented the system will supports items such as online ordering, online meter entry, and remote tech capabilities. “This investment, which was significant, is a long term commitment to utilize the latest technologies in servicing our accounts” added Averbek.
